

Chapter 8: The Cocoon

Poem Summary & Study Notes

Subject: English / Science
Topic: Life Cycle of a Butterfly
Source: David McCord Poem

Poem about a कोश
(Cocoon) turning into a
फुलपाखरू (Butterfly).

1. The Discovery (Stanza 1)

- The poet found a cocoon.
- Who made it? A caterpillar.
- Where was it?
 - Fastened to a leaf.
 - Hanging in the shade (cool place).

Fastened = Attached
or joined.

Cocoon = कौश (Kosh)

Fastened = जोड़लेले (Jodlele)

Exam Tip:
Remember the
location! It was
in the shade, not
the sun!

2. Inside the Cocoon (Stanza 2)

- The space inside is very small/tight.
- The caterpillar had barely any room.
- He could not wiggle or wag.

The space was very small (ती जागा खूप लहान होती).

Literary Device: Simile

The poet compares the cocoon to a 'Sleeping Bag'.

Quote: "Like me zipped up in my sleeping bag."

Like a sleeping bag (स्लीपिंग बैग सारखे).

3. The Waiting Game (Stanza 3)

- The poet checked the cocoon many times.
- He passed by it often.
- Observation: Nothing happened for a long time.
- It never **budged** (moved). → Moved slightly.

(It did not move at all / कोश अजिबात हालला नाही)

Meaning: Nature takes time! We must be patient.

4. Something Happened! (Stanza 4)

- Until just today... ACTION!
- The cocoon started moving.
- The insect inside was struggling to get out.

✓ Wagged

✓ Wiggled

✓ Jiggled

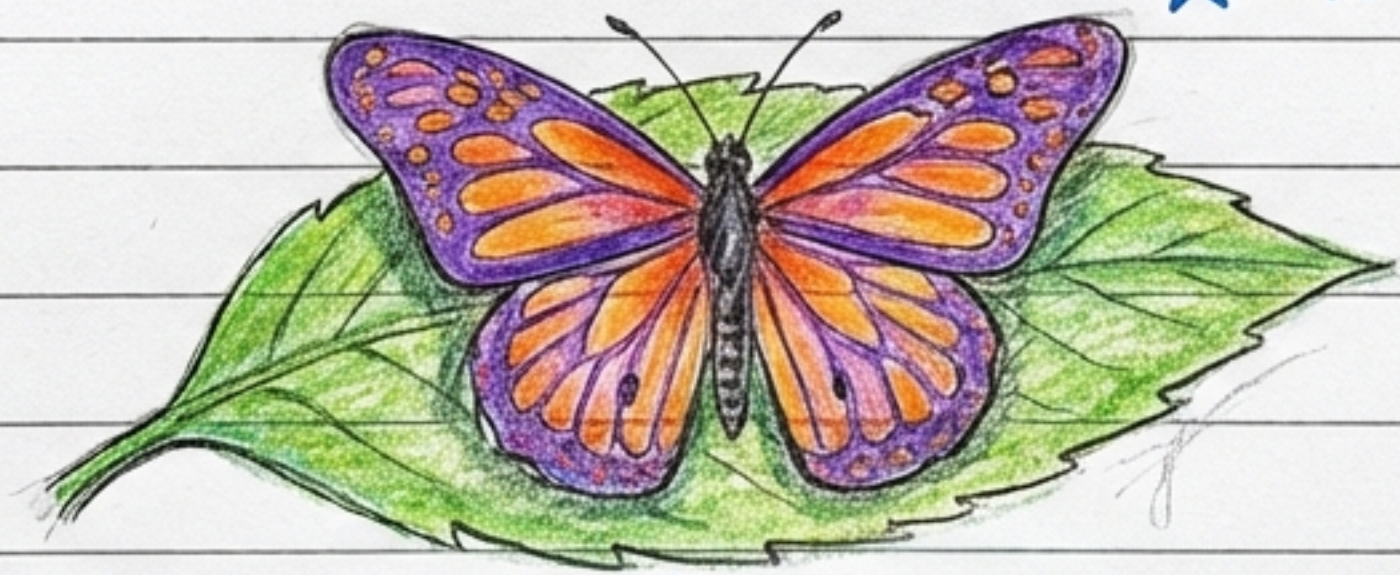

Definition: Moved with quick little jerks.

Movement started
inside (हालचाल
सुरु झाली).

5. The Transformation (Stanza 5)

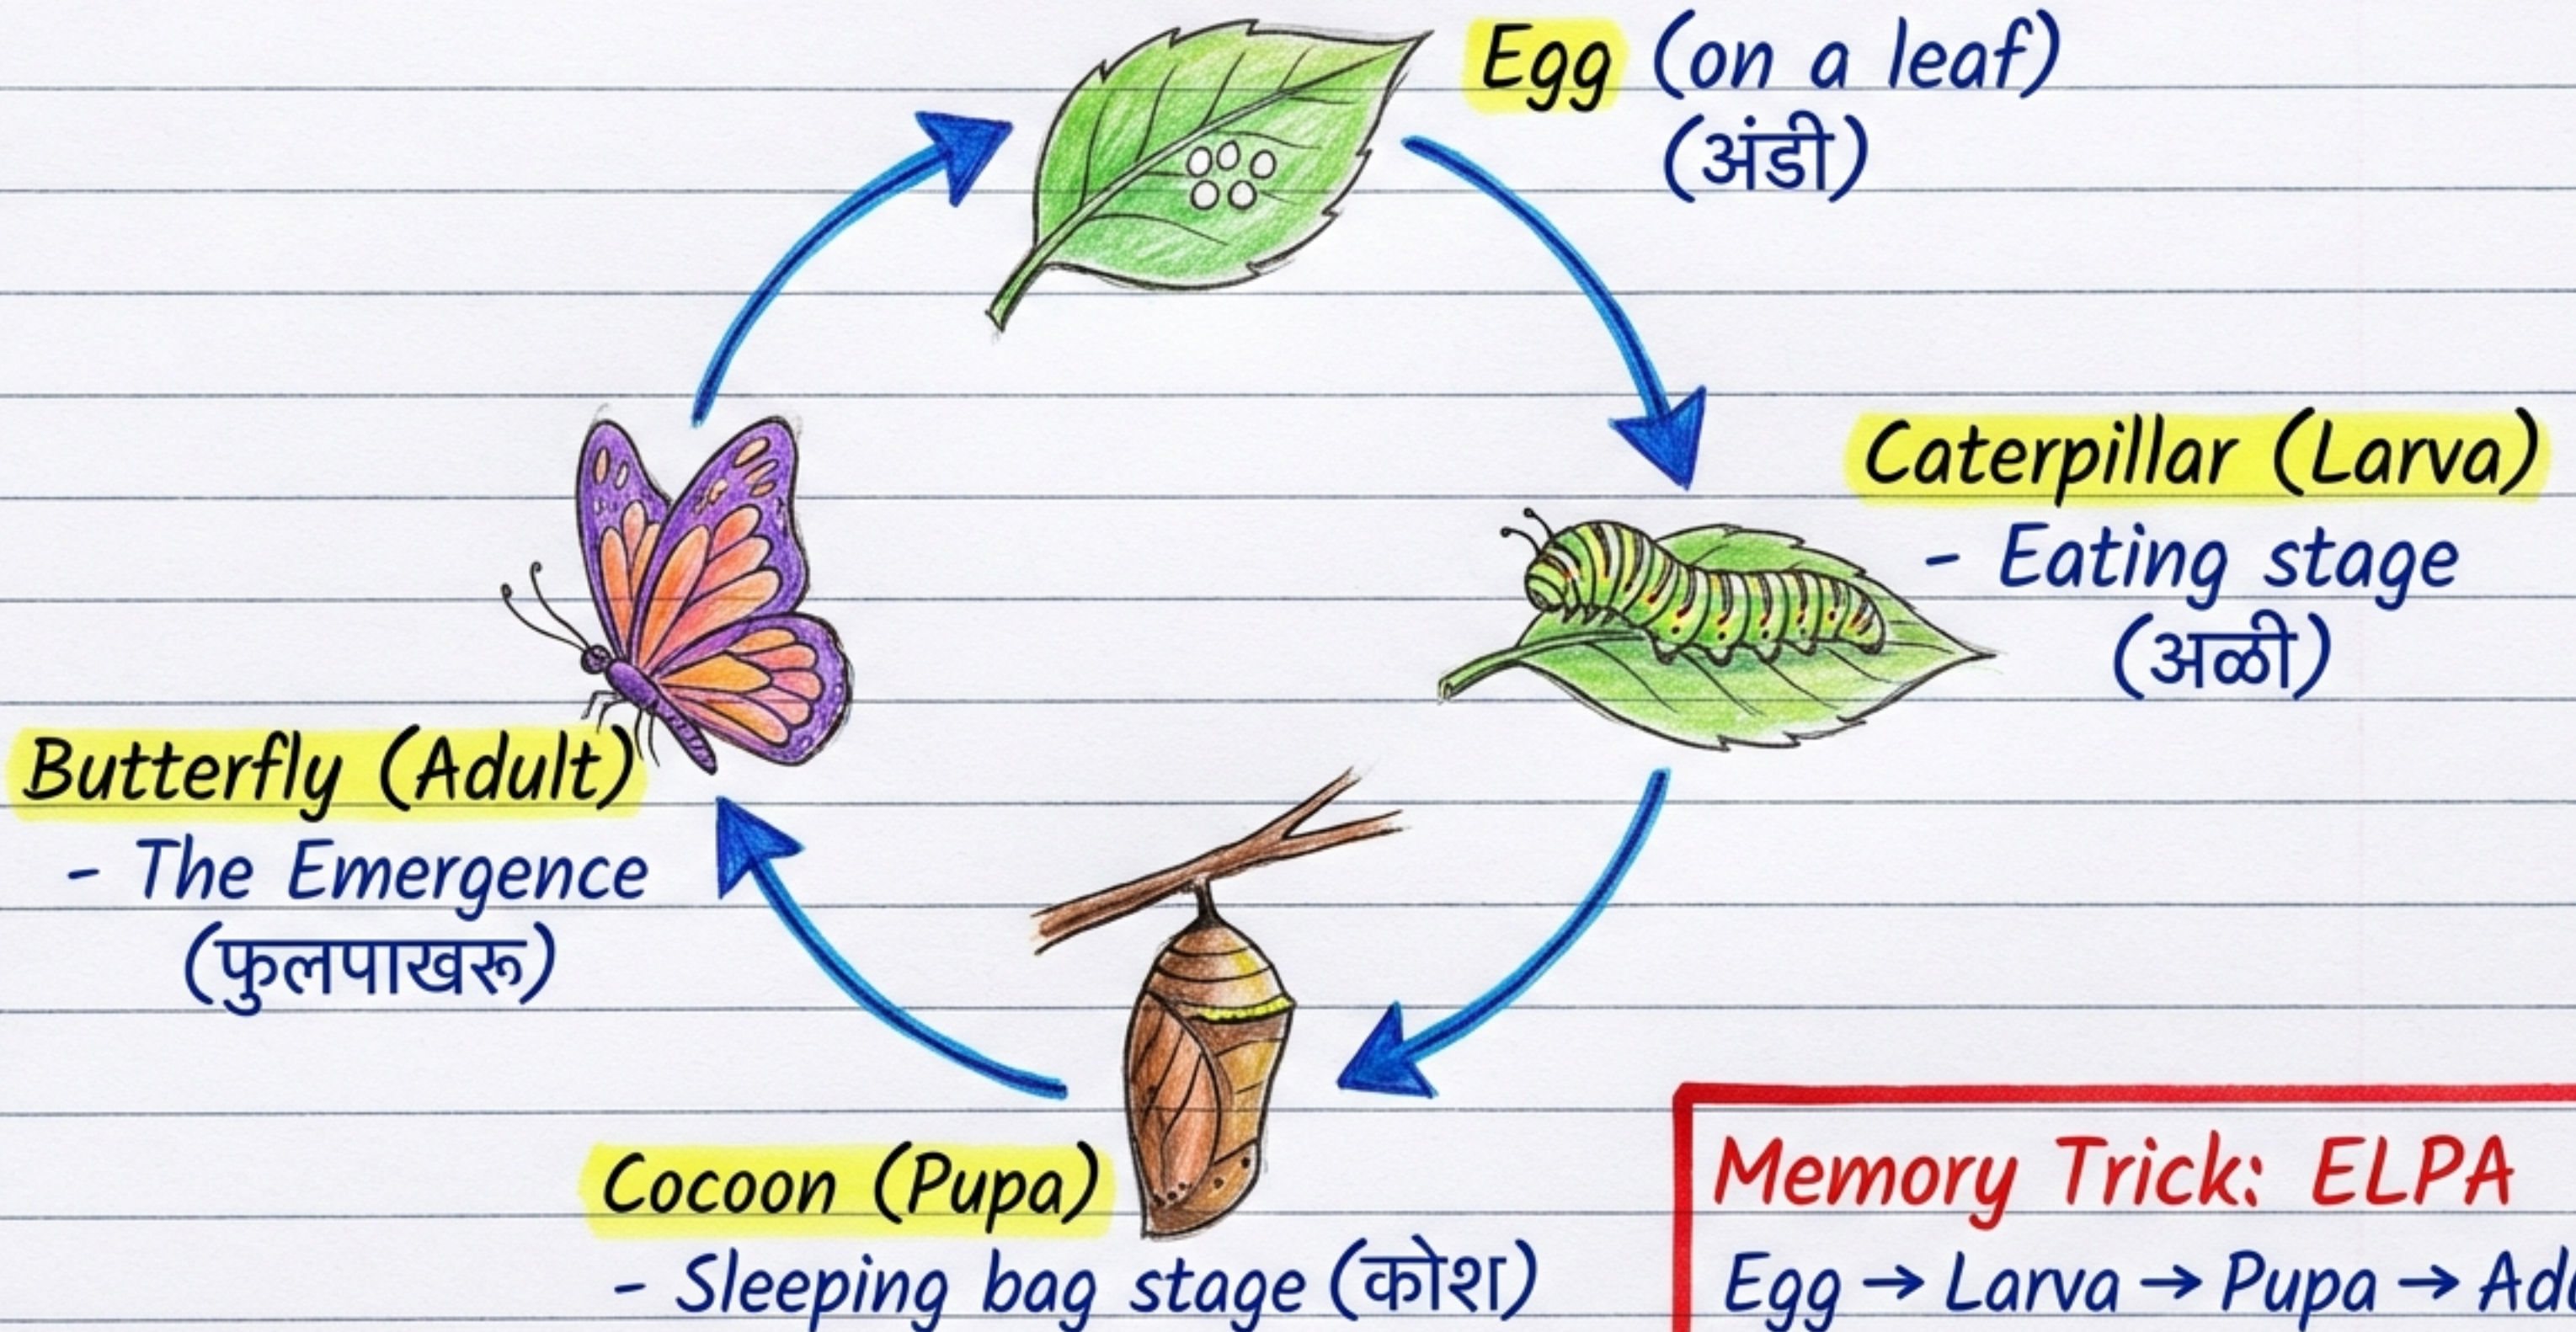

- Small wet wings came out first.
- The Process:
 1. Wings appeared (Wet).
 2. Wings dried.
 3. Wings grew bigger.
- The Surprise: It wasn't a caterpillar anymore.
- Result: It turned into a **BUTTERFLY!**

What a
wonder!

सुरवंट (Caterpillar) → फुलपाखरू (Butterfly)

Science Fact: The Life Cycle

Memory Trick: ELPA

Egg → Larva → Pupa → Adult

Word Power (Dictionary)

Word	Meaning	Marathi
Fastened 	Attached to, or joined by	Jo dlele
Wiggle 	To move to and fro with quick motions	Valvalne
Wag	To swing to and fro or up and down	Halvine
Budged	Moved slightly	Halala
Jiggled	Moved with quick little jerks	Zatkan halne

Did You Know? (Fun Facts)

1. Butterflies taste with their **FEET!**

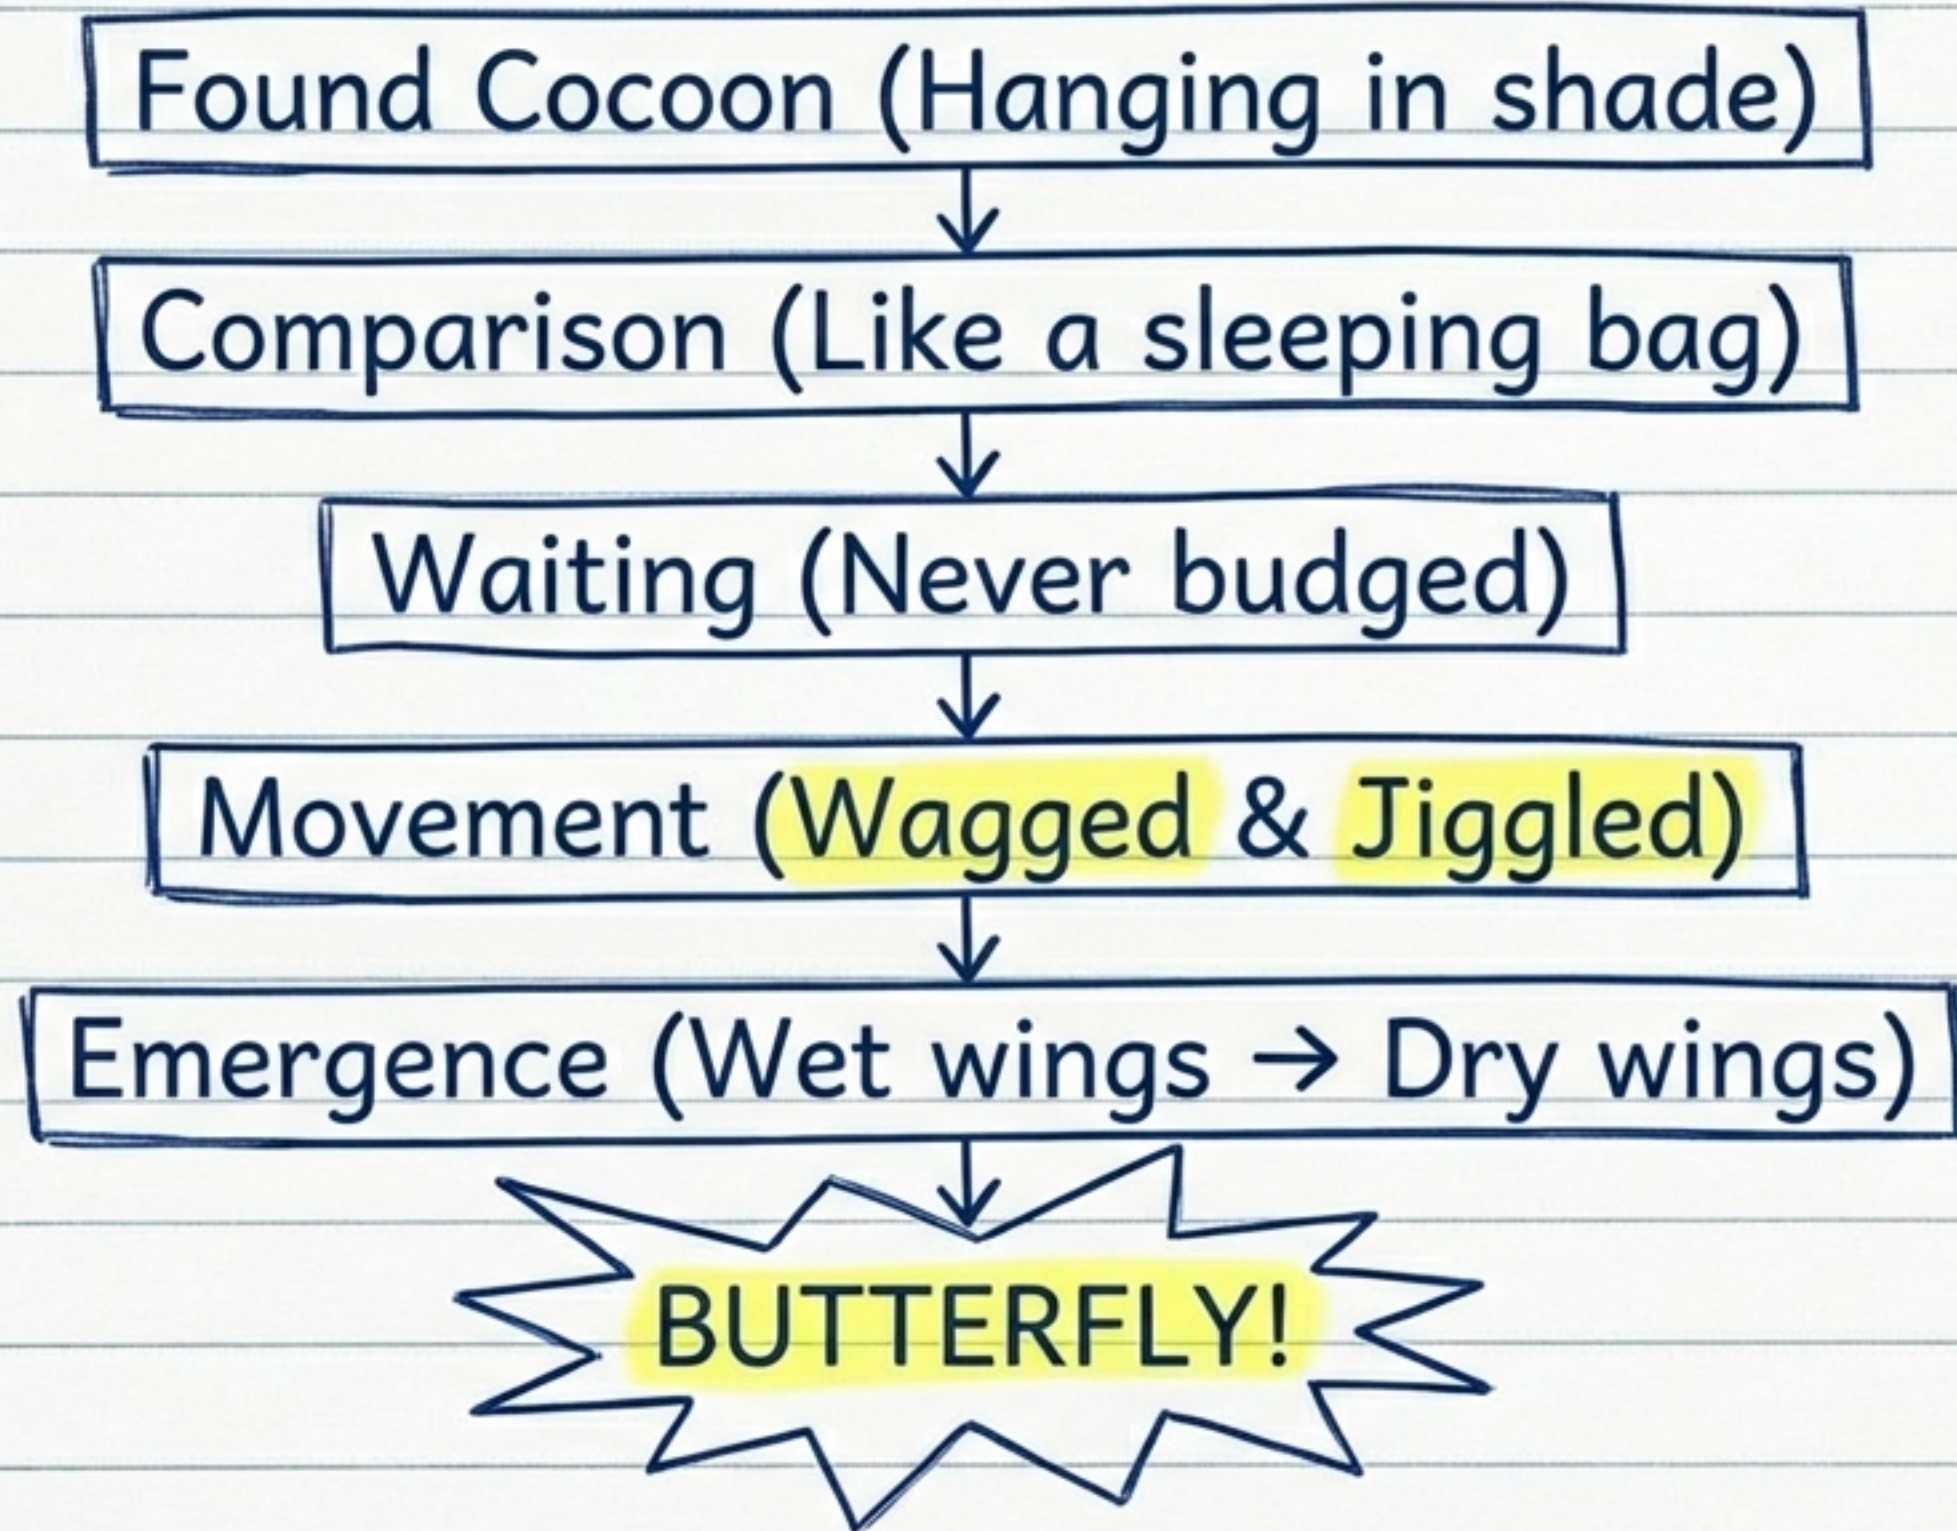

Why? They have **taste receptors** on their feet to help find food.

2. They drink from mud puddles.

Why? Puddles are rich in **minerals** and **salts**.

Quick Recap: The Story Flow

Theme: Nature & Patience.

Exam Tips & Tricks!

1. Spelling Check: Don't mistake the spelling of Caterpillar and Cocoon.

Trick: Cat - er - pillar

2. Question: What is the cocoon compared to?

Answer: A Sleeping Bag.

3. Order of Movement:

Wiggle → Wag → Jiggle

**All the Best
for Exams!**

Don't
Forget!
